Faster Everywhere

The fastest UCI-legal road bike in the world.
More speed with less effort. Simple as that.

Key Features

▣ **Simply the Fastest**

SystemSix produces the least aerodynamic drag of any road bike on the market, which helps any rider go faster, easier.

▣ **Seriously — It's So Fast**

SystemSix outstrips opponents, and not just where you'd expect. It sprints, descends and even climbs most hills faster, conserving watts off the front, in the draft, or in the laughing group.

▣ **A Sweet Ride-Feel, Too**

SystemSix maximizes the benefits of disc brakes, big volume tires and EVO-inspired geometry. Dramatic drag reduction. Great handling. Explosive performance. Make the most of the watts you've got.

SystemSix Hi-MOD Red eTap AXS

RRP \$13999

C11200M

Frame	BallisTec Hi-MOD Carbon, integrated cable routing w/ Switchplate, SAVE, PF30a, flat mount disc, 142x12 Speed Release thru-axle
Fork	BallisTec Hi-MOD Carbon, 1-1/8" - 1-1/4" steerer, 12x100mm Speed Release thru-axle, flat mount disc, 55mm offset (47-51cm) 45mm offset (54-62cm)
Rims	HollowGram 64 SL KNØT, Carbon, 20h front, 24h rear, 64mm deep, 21mm ID, tubeless ready
Hubs	(F) HollowGram KNØT, sealed bearing 12x100 centerlock / (R) HollowGram KNØT, 12x142 centerlock w/ DT Swiss internals, SRAM XDR driver
Spokes	DT Swiss Aerolite, straight pull
Tires	Vittoria Rubino Pro Speed, 700 x 26mm (23c)
Pedals	Not Included
Crank	SRAM RED Carbon, 48/35
Bottom Bracket	SRAM RED DUB PF30
Chain	SRAM RED, 12-speed

Rear Cogs	SRAM XG-1290, 10-28, 12-speed
Front Derailleur	SRAM RED eTap AXS, braze-on
Rear Derailleur	SRAM RED eTap AXS
Shifters	SRAM RED eTap AXS HRD, 2x12
Handlebar	HollowGram SystemBar KNØT, alloy w/ cable cover
Grips	Cannondale Grip Bar Tape w/Gel, 3.5mm
Stem	HollowGram Stem KNØT, alloy w/ cable cover, -17°
Headset	Tapered, 1-1/8" upper, 1-1/4" lower bearing
Brakes	SRAM RED eTap AXS HRD, 160/160mm Centerlock rotors
Brake Levers	SRAM RED eTap AXS HRD
Saddle	Prologo Dimension NDR, 143mm width, Tirox rails
Seatpost	HollowGram 60 KNØT Carbon, 330mm
Connectivity	Wheel Sensor
Sizes	51, 54, 56, 58, 60, 62
Color 1	Champagne (CHP)

SystemSix Carbon Ultegra Di2

RRP \$8999

C11300M

Frame	BallisTec Carbon, integrated cable routing w/ Switchplate, SAVE, PF30a, flat mount disc, 142x12 Speed Release thru-axle
Fork	BallisTec Carbon, 1-1/8" - 1-1/4" steerer, 12x100mm Speed Release thru-axle, flat mount disc, 55mm offset (47-51cm) 45mm offset (54-62cm)
Rims	HollowGram 64 SL KNØT, Carbon, 20h front, 24h rear, 64mm deep, 21mm ID, tubeless ready
Hubs	(F) HollowGram KNØT, sealed bearing 12x100 centerlock / (R) HollowGram KNØT, 12x142 centerlock w/ DT Swiss internals
Spokes	DT Swiss Aerolite, straight pull
Tires	Vittoria Rubino Pro Speed, 700 x 26mm (23c)
Pedals	Not Included
Crank	HollowGram, BB30a w/ OPI SpiderRing, 52/36
Bottom Bracket	Cannondale Alloy PressFit30
Chain	Shimano HG701, 11-speed

Rear Cogs	Shimano Ultegra, 11-30, 11-speed
Front Derailleur	Shimano Ultegra Di2, braze-on
Rear Derailleur	Shimano Ultegra Di2
Shifters	Shimano Ultegra Di2 hydro disc, 2x11
Handlebar	HollowGram SystemBar KNØT, alloy w/ cable cover
Grips	Cannondale Grip Bar Tape w/Gel, 3.5mm
Stem	HollowGram Stem KNØT, alloy w/ cable cover, -17°
Headset	Tapered, 1-1/8" upper, 1-1/4" lower bearing
Brakes	Shimano Ultegra Di2 hydro disc, 160/140mm RT800 rotors
Brake Levers	Shimano Ultegra Di2 hydro disc
Saddle	Prologo Dimension NDR, 143mm width, Tirox rails
Seatpost	HollowGram 60 KNØT Carbon, 330mm
Connectivity	Wheel Sensor
Sizes	47, 51, 54, 56, 58, 60
Color 1	Team Replica (REP)

Wheel / Tire Size

700 x25c

Fly

A pure road bike. Light, smooth and ultra fast.
The evolution of the classic race machine.

Key Benefits

▣ Less Drag. More Speed.

30 watts. That's how much power the drag-reducing tube shapes and integrated design of the new SuperSix EVO saves over the prior version at 30 mph (48.3 km/h). Fast just got faster.

▣ Feel the Light

The lightest disc brake road frameset we've ever made. The new SuperSix EVO is ready to throw down when the grade goes up.

▣ Swift and Sure

Racy geometry and stiffness for explosive speed. Better micro-suspension and big tire clearance for surprising smoothness. It all adds up to precise handling and a ride-feel that's out of sight.

SuperSix EVO Hi-MOD Disc Dura Ace Di2

RRP \$12999

C11150M

Frame	All-New, BallisTec Hi-MOD Carbon, integrated cable routing w/ Switchplate, 142×12 Speed Release thru-axle, SAVE, PF30a, flat mount disc, integrated seat binder

Make Your Own Luck

This is the speediest, smoothest, best handling, finest performing aluminum race bike on the planet.

Key Benefits

▣ Your Lucky Number

CAAD13 is the ultimate alloy race machine. With exceptional efficiency and superb handling, it out-performs most carbon — at an aluminum price. Fitting, since aluminum's atomic number is 13.

▣ Decreased Drag

With every new CAAD we design, speed increases. The same can't be said for weight. Drag-reducing tube shapes and sleek integration keeps the CAAD13 light but make it much, much faster.

▣ Smooth by Design

Dropped rear stay configuration and ample room for bigger tires delivers the best possible blend of stiff efficiency and unbeatable comfort in an alloy road racer.

700 x25-28c

Where Performance Begins

A performance road bike with race-winning DNA. Smooth, fast, affordable—pick three.

Key Benefits

▣ **Exceptional Aluminum Performance**

Refined butting, precisely controlled tube shapes, and renowned double-pass welds create frames that are lighter and ride better than our competitors' highest-end alloy offerings.

▣ **Elite Race Geometry**

With similar geometry to the CAAD13, the CAAD Optimo offers riders true race handling and body position.

▣ **Ride Smoother with SAVE**

Specifically engineered flex zones in the rear of the frame absorb road irregularities for better comfort and control.

CAAD Optimo 105

RRP \$1999

C14100M

Frame	SmartForm C2 Alloy, SAVE, tapered headtube, fender mounts
Fork	Full Carbon, 1-1/8" to 1-1/4" steerer, fender mounts

Keep Firing

A road bike that's light, stiff, fast and surprisingly comfortable. Your rides will go longer. You'll barely notice.

Key Benefits

▣ **Connected & Protected**

SAVE micro-suspension technology in the frame, fork, bar and seatpost insulates you from bumps while keeping you connected to the road. Better handling and control, with the comfort to ride all day.

▣ **Race-Level Performance**

Light enough for quick climbing and stiff enough for sprinting thanks to asymmetric design, refined tube shapes and dialed carbon layup. This bike's lively feel is replicated across every size.

▣ **True Endurance**

Endurance Race Geometry positions you forward enough to go hard but upright enough to go long, plus a removable seatstay bridge and hidden fender mounts keep you grinding on any road, in any weather.

Keep Firing

A road bike that's light, stiff, fast and surprisingly comfortable. Your rides will go longer. You'll barely notice.

Key Benefits

▣ **Start Out Right**

On anything from fast group rides to daily commutes, the Synapse's light weight, comfortable sportive position and smooth ride will help you ride faster, ride longer and ride more.

▣ **Connected & Protected**

SAVE micro-suspension technology in the frame and fork insulates you from bumps while maintaining your connection to the road. Improved handling, more control, and enough comfort to ride all day.

▣ **True Endurance**

Endurance Geometry positions you forward enough to go hard but with enough upright comfort to go long.

cannondale

More Give. More Go.

An unprecedented gravel bike with real suspension. The most capable off-road, the most comfortable on-road.

Key Benefits

▣ KingPin Suspension System

Revolutionary, super-light suspension that lets you ride harder on dirt and more smoothly on pavement. Better control. Better traction. Better comfort. Nothing sacrificed.

▣ It's Easier to Go Harder

Refined geometry and rider position deliver an experience that's stable, composed and comfortable without losing that spark. Go further, ride longer, charge harder.

▣ The Last Detail

We thought of everything. Big clearance for big tires. Tons of gear and storage mounts. Speed Release thru-axles. DirectLine cable routing. Internal dropper post compatibility. In short, the works.

Topstone Carbon Force eTap AXS

RRP \$7499

C15200M

Frame	All-New, BallisTec Carbon, Kingpin suspension system, Proportional Response size-specific construction, Directline internal cable routing, BB30-83 Ai, 142×12 Speed Release thru-axle, flat-mount disc, removable fender bridge, multiple gear/bottle mounts, dropper post compatible

Brakes	SRAM Force eTap AXS, 160/160mm Centerline, Centerlock rotors
Brake Levers	SRAM Force eTap AXS
Saddle	Fabric Scoop Shallow Race, titanium rails
Seatpost	SAVE Carbon, 27.2 × 350mm (XS-L), 400mm (XL)
Connectivity	Wheel Sensor
Sizes	XS, S, M, L, XL
Color 1	Acid Red (ARD)

Topstone Carbon Ultegra RX 2

RRP \$4199

C15500M

Frame	All-New, BallisTec Carbon, Kingpin suspension system, Proportional Response size-specific construction, Directline internal cable routing, BB30-83 Ai, 142×12 Speed Release thru-axle, flat-mount disc, removable fender bridge, multiple gear/bottle mounts, dropper post compatible
Fork	All-New, BallisTec Carbon, 55mm OutFront offset, SAVE, 1-1/8" to 1.5" steerer, integrated crown race, Directline internal routing, 12×100mm Speed Release thru-axle, flat mount disc, gear/rack/fender mounts
Rims	WTB KOM Light i23 TCS, 28h, tubeless ready
Hubs	(F) Formula CL-712, 12×100 centerlock / (R) Formula RXC-400, 12×142 centerlock
Spokes	Stainless Steel, 14g (Ai Offset Dish - rear)
Tires	WTB Riddler TCS Light, 700 × 37c, tubeless ready
Crank	Cannondale 1, BB30a, FSA rings, 46/30
Bottom Bracket	Cannondale Alloy PressFit30
Chain	Shimano HG601, 11-speed

Rear Cogs	Shimano 105, 11-34, 11-speed
Front Derailleur	Shimano Ultegra, braze-on
Rear Derailleur	Shimano Ultegra RX GS Shadow Plus
Shifters	Shimano Ultegra hydro disc, 2×11
Handlebar	Cannondale 3, butted 6061 alloy, 16 deg flare drop
Grips	Cannondale Grip Bar Tape w/Gel, 3.5mm
Stem	Cannondale 2, 6061 alloy, 31.8, 6°
Headset	Integrated, 1.5" lower to 1-1/8" upper w/ reducer, 25mm Alloy top cap
Brakes	Shimano Ultegra hydro disc, 160/160mm RT54 rotors
Brake Levers	Shimano Ultegra hydro disc
Saddle	Fabric Scoop Radius Elite, cro-mo rails
Seatpost	Cannondale 2, carbon, 27.2 × 350mm
Connectivity	Wheel Sensor
Sizes	XS, S, M, L, XL
Color 1	Agave (AGV)

cannondale

Born to Roll and Roam

A capable, versatile gravel road bike. Built for chasing horizons, exploring routes less travelled or accelerating your commute.

Key Benefits

▣ **Confident Control**

A balanced riding position: upright enough for comfort over the long haul and control on technical terrain, yet still low and forward enough for speedy efficiency.

▣ **Smooth and Able**

Built with plenty of room for tires up to 42mm wide, for comfort, grip and adventurous capability.

▣ **Ready for Adventure**

With mounts for three waterbottles, plus mounts for top tube storage, Topstone is ready to go long. Multiple bottle cage positions on the downtube mount let you configure for big frame bags.

Topstone 105

RRP \$2999

C15700M

Frame	SmartForm C2 Alloy, 142×12 thru-axle, tapered headtube, flat mount disc, StraightShot internal cable routing, multiple gear/bottle mounts
Fork	Full Carbon, 1-1/8" to 1-1/4" steerer, 55mm OutFront offset, flat mount disc, internal routing, 12×100 thru axle
Rims	WTB ST i23 TCS, 28h, tubeless ready
Hubs	(F) Formula RX-512, 12×100 centerlock / (R) Formula RX-142, 12×142 centerlock
Spokes	Stainless Steel, 14g
Tires	WTB Riddler TCS Light, 700 × 37c, tubeless ready
Pedals	Not Included
Crank	FSA Omega ME alloy, 46/30
Bottom Bracket	FSA Omega
Chain	KMC X11, 11-speed
Rear Cogs	Shimano 105, 11-34, 11-speed

Front Derailleur	Shimano 105, 31.8 clamp
Rear Derailleur	Shimano 105 GS
Shifters	Shimano 105 hydro disc, 2×11
Handlebar	Cannondale 3, butted 6061 alloy, 16 deg flare drop
Grips	Cannondale Grip Bar Tape w/Gel, 3.5mm
Stem	Cannondale 3, 6061 alloy, 31.8, 7°
Headset	Topstone Si, 25mm Alloy top cap
Brakes	Shimano 105 hydro disc, 160/160mm RT56 rotors
Brake Levers	Shimano 105 hydro disc

Wheel / Tire Size

29 x 2.5

Travel

(F) 150mm (R) 150mm

Rage Ready

A quick, nimble and precise enduro sledgehammer. Climb up, sear down and devour everything between.

Key Benefits

▣ Dialed Geometry

Confident, point-and-shoot control from the long reach, slack head angle and reduced-offset fork, while the steep seat angle and short stays help you put the power down on the climbs.

▣ The Ai Advantage

Our Ai Offset Drivetrain opens up the rear triangle for more tire clearance, while keeping the chainstays short for nimble agility. A stiffer, stronger rear wheel is just icing on the cake.

▣ Link Up

A link-driven leverage ratio provides response and support throughout the stroke, keeping suspension active while retaining the stiffness, reliability and supple top stroke of a single-pivot design.

Jekyll Carbon 29 2

RRP \$7199

C21200M

Frame	BallisTec Carbon front triangle, SmartForm C1 Alloy swingarm, 150mm travel, Ai offset drivetrain, ISCG05, PF30-83, flat mount brake, tapered headtube
Fork	Fox Float Performance 36, 150mm, Grip2 Damper, 3-Pos adj., 15x110, tapered steerer, 42mm offset
Rear Shock	Fox Float Factory DPX2 EVOL w/ Gemini dual mode air spring system (Flow Mode - 150mm / Hustle Mode - 120mm, Remote Activated) 3-Pos adj.
Rims	Stan's NoTubes Flow MK3, 32h, tubeless ready

Model 6
(F) 130mm (R) 130mm

Second Nature

A trail bike with its priorities straight: progressive design, playful agility and killer capability – all in the name of fun.

Key Benefits

▣ Flow Seeker

The head angle is slack, the stays are short and the seat angle is steep. It's that long, low modern geometry that helps you wring a little more flow out of every kind of trail.

▣ One Size Doesn't Fit All

Riders come in all sizes. Proportional Response is the only design that addresses this fact, tailoring the suspension layout by size so that every rider gets optimal traction, suppleness and control.

▣ The Right Stuff

29" wheels with big, grippy tires. Properly wide bars and properly short stems. Powerful brakes and dropper posts. Straightforward parts for straightforward performance.

Habit Carbon 1

RRP \$9199

C23100M

Frame	130mm travel, BallisTec Carbon Frame and Swingarm, Proportional Response Tuned, Ai offset drivetrain, ISCG05, PF30, Post mount brake, tapered headtube
Fork	RockShox Pike Ultimate RC2, 140mm, DebonAir, 15×110, tapered steered, 51mm offset

Level Up

With beautifully crafted frames, progressive geometry and seriously dirt-ready components, Trail hardtails are built to take your riding to the next level, from your first time off-road to your next big adventure.

Key Benefits

▣ **Perfectly Framed**

Light and lively, stiff and snappy. The Trail frames showcase our decades of expertise in aluminum craftsmanship.

For MY20, a new frame brings Trail handling and performance to more pricepoints than ever.

Trail 1 thru 3: Existing frame - SmartForm C2 Alloy, tapered headtube, Boost QR spacing, flat mount disc

Trail 4 thru 8: New frame - SmartForm C3 Alloy, 1-1/8" headtube, standard QR spacing, post mount disc

▣ **Confident Handling**

Dirt-Tailored Geometry brings both quickness and composure. Short chainstays for agility and traction, a slack head angle for unwavering stability, plus wide bars and a short stem for total control.

▣ **Real Deal**

Trail is sweetly priced, but make no mistake — wide range gearing, powerful disc brakes and durable wheels and tires contribute to big trail readiness. Naming this bike was a no-brainer.

Declare Victory

The ultimate XC race bike. Built to win on today's aggressive World Cup courses or rule your local loop.

Key Benefits

▣ **Course-Slaying Geometry**

All the precision and quickness you expect from a top XC rig, but with unreal stability and traction. Go full gas where others hesitate.

▣ **Full-Throttle Efficiency**

One of the lightest dual suspension bikes in the world. Taut, tuned chassis stiffness and supple yet supportive suspension let you own the climbs, rule the descents and crush the sprints.

▣ **The Best XC Fork...Period**

Simply the most advanced, smoothest, most precise-handling ultralight XC fork ever made. Its one-of-a-kind design lets it float through the chop and steer through the chunder like nothing else.

Scalpel Si Hi-MOD World Cup

RRP \$13999

C24100M

Frame	BallisTec Hi-MOD Carbon, 100mm travel, Zero Pivot seatstay, Carbon Link, PF30-83, 1.5 Si head tube, Ai Offset
Fork	Lefty Ocho Carbon, 27.5/29", 100mm, Chamber Damper with cable lockout, OppO Spring System, tapered steerer, 50/55mm offset
Rear Shock	Fox Float Factory DPS EVOL, 100mm, remote-actuated, Kashima coating
Rims	ENVE M525 Carbon, 24h, tubeless ready
Hubs	(F) Lefty 60 (R) DT Swiss C36 12x142 rear w/ XD Driver
Spokes	DT Swiss Aerolite (Ai Offset dish - rear)
Tires	(F) Schwalbe Racing Ray 27.5/29 × 2.25", Snake Skin, Addix Speedgrip Compound, tubeless ready (R) Schwalbe Racing Ralph 27.5/29 × 2.25", Snake Skin, Addix Speed Compound, tubeless ready
Pedals	Not Included
Crank	SRAM XX1 Eagle DUB, 34T, Ai offset
Bottom Bracket	SRAM DUB PF30 MTB83

Chain	SRAM XX1 Eagle, 12-speed
Rear Cogs	SRAM XG-1299, 10-50, 12-speed
Rear Derailleur	SRAM XX1 Eagle AXS
Shifters	SRAM Eagle AXS, 12-speed
Handlebar	ENVE M5, Carbon, 760mm, 31.8mm, 5mm rise, 9° sweep
Grips	Cannondale Locking Grips
Stem	Cannondale 1, 7075 Alloy, 1-1/8", 31.8, 7°
Headset	Integrated, 1-1/8 to 1.5", sealed angular contact bearings (Integrated steer stop size small only)
Brakes	SRAM Level Ultimate hydro disc, 180/160mm Centerline rotors
Brake Levers	SRAM Level Ultimate hydro disc
Saddle	Prologo Zero II, Tirox rails
Seatpost	ENVE Carbon, 31.6 × 400mm, 0mm offset
Connectivity	Wheel Sensor
Sizes	S, M, L, XL

Urban Legend

The ultimate urban ride. Elegantly aggressive style. Forward-thinking features. Traffic-slaying performance.

Key Benefits

▣ **Get Noticed**

Cleanly integrated LED lights in the Lefty LightPipe fork and seatpost ensure that you'll always stand out.

▣ **Street Fighter**

With its stiff Lefty LightPipe fork, grippy tires, and agile point-and-shoot handling, Bad Boy is built to take the city by storm.

▣ **Smooth Speed**

Big-volume tires on 650b wheels are fast rolling and nimble handling, with crazy cornering grip and pothole-erasing comfort.

Wheel / Tire Size

650 x47c

Nothing beats a bike ride.

The all-new Treadwell is designed to bring a bit of fun and style to the daily runaround. It's a light, simple, responsive bike for rolling around, meeting up with friends, and getting from here to there with that feeling of freedom that only two wheels can give.

Key Benefits

▣ More Fun Days

It's comfy. It's playful. It's easy to get on and off. This is a capable, well-made ride that nods to funky bikes of the past, with handlebars and tires inspired by dirt-track racers.

▣ Connected

An integrated wheel sensor helps track your activity (like speed, distance and calories burned), registers your bike, reminds you of needed service and more, all through the free Cannondale app.

▣ Nice and Light

Practical doesn't have to mean vanilla. Not with this bike. Light and responsive, it bounds through the city and blasts through the boroughs with style.

Quick As You Like

The new Quick is our all-rounder – a fast, versatile and fun bike that appeals to a wide range of riders. Perfect for enjoying a workout, cruising the city or just getting out and feeling good.

Key Benefits

▣ **Feel the Light**

Quick bikes are the lightest in their class, making them easier to pedal, easier to lift, and easier to love. For 2020, all Quicks feature a new, updated frame that's lighter weight, with refined SAVE micro-suspension features, easy-to-use StraightShot internal cable routing, and a sleek new look.

▣ **Connected**

Most Quick models feature an all- new way for riders to connect with the ride experience. An integrated wheel sensor pairs with with a new, free Cannondale App and tracks activity (like speed, distance and calories burned), registers the bike, sends service reminders and more.

▣ **Comfortable & Capable**

Bump-absorbing SAVE micro-suspension, comfy grips and new pressure-relieving saddles for comfort. 360° reflective accents for visibility. Rack and fender mounts for versatility.

The Open Road

The hill-leveling power, all-day range and a comfortable, confident rider position of this all-new electric road bike makes the beauty of road riding open to all.

Key Benefits

▣ PURE POWER

The Bosch Generation 3 Active Line Plus is the perfect drive unit for e-road. It's silent, powerful light, and has virtually no drag when the motor cuts out.

▣ NO RANGE ANXIETY

The big 500Wh PowerTube battery integrates cleanly into the downtube and packs enough energy for even the longest days. Go as long as you want -the Synapse NEO will get you home.

▣ REAL ROAD GEARING

Synapse NEO is the only Bosch equipped road bike compatible with a double chainring crank, so you can always find the right gear to make the most of the power you have.

▣ CONFIDENT HANDLING

OutFront Geometry delivers high-speed stability with a quick, nimble road-bike feel. And as a bonus, it reduces the chance of toe overlap with the front wheel on smaller sizes.

▣ ALL-DAY COMFORT

A classic endurance rider position, road-smoothing 700×32c tires and Cannondale's SAVE Micro-Suspension keep you comfortably in control on even the longest, roughest days.

Synapse NEO 1

RRP \$6799

C67100M

Frame	SmartForm C1 Alloy, removable downtube battery, SAVE, Ai, internal cable routing, flat mount brake, 142×12 thru-axle, Si kickstand mount, rack/fender mounts
Fork	BallisTec Carbon, 1-1/8" to 1.5" tapered steerer, 55mm offset, flat mount brake, 12×100 thru axle, fender mounts, hidden cable routing
Drive Unit	Bosch Active Line Plus 250W
Battery	Bosch PowerTube 500Wh
Display	Bosch Purion
Charger	Bosch 4a
Rims	RD 2.0, 28h
Hubs	(F) Formula CL-712 / (R) RXC-142S
Spokes	DT Swiss Champion

Boundless

An e-mountain bike with infinite capability. The shackles are off, go ride the unrideable. Again and again.

Key Benefits

▣ IT RAILS

Impressively precise. Uncommonly agile. With its low center of gravity, modern geometry and short chainstays, Moterra's handling is in a class of its own.

▣ ONE SIZE DOESN'T FIT ALL

Riders come in all sizes. Proportional Response is the only design that addresses this fact, tailoring the suspension layout by size so that every rider gets optimal traction, suppleness and control.

▣ POWER & STYLE

Bosch's powerful Performance CX drive unit and a longlasting PowerTube battery integrate cleanly into Moterra's burly carbon frame. The power and range to ride anything — in a beautiful package.

(F) 140mm (R) 130mm

Second Nature

An E-mountain bike with its priorities straight: progressive design, playful agility and killer capability – all in the name of fun.

Key Benefits

▣ Flow Seeker

The head angle is slack, the stays are short and the seat angle is steep. The drive unit and battery sit low and central in the frame. All to help you wring more flow from every inch of trail.

▣ One Size Doesn't Fit All

Riders come in all sizes. Proportional Response is the only design that addresses this fact, tailoring the suspension layout by size so that every rider gets optimal traction, suppleness and control.

▣ The Right Stuff

Powerful Bosch Performance CX drive unit and PowerTube battery. 29" wheels with grippy tires. Properly wide bars and properly short stems. Dropper posts. Big brakes. Real parts for real performance.

Habit Neo 2

RRP \$8499

Go Wild

This on-road/off-road e-bike is a fully loaded trekking machine. Get out of the rat-race and into the wilderness.

Key Benefits

▣ Off-Road Ready

Tesoro NEO X lives to be pointed off pavement. For bikepacking, backroad trekking or rugged transport, its MTB-inspired frame & fork and big 29" wheels let you get in deeper and go further.

▣ Loaded for Adventure

Secure, rattle-free fenders and a full rear rack, bright front and rear lights, and even a kickstand mean you're ready to tackle any adventure.

▣ Comfortably in Control

Potholes? Gravel? Tram tracks? No worries. All the features that make Tesoro NEO X so capable off-road translate into a supremely comfortable, confident experience on-road.

HollowGram KNØT SystemBar

Provides the low drag and sleek look of a one-piece system, with the fit and interchangeability benefits of a two-piece bar and stem. 8 degrees of pitch adjustment. Narrow bar width with flared drops brings your arms closer together when on the hoods for lower drag.

- Look and speed of a 1-piece system
- Adjustability of a 2-piece system 6 watts faster than traditional cockpits when paired with SAVE Stem

Lefty Ocho

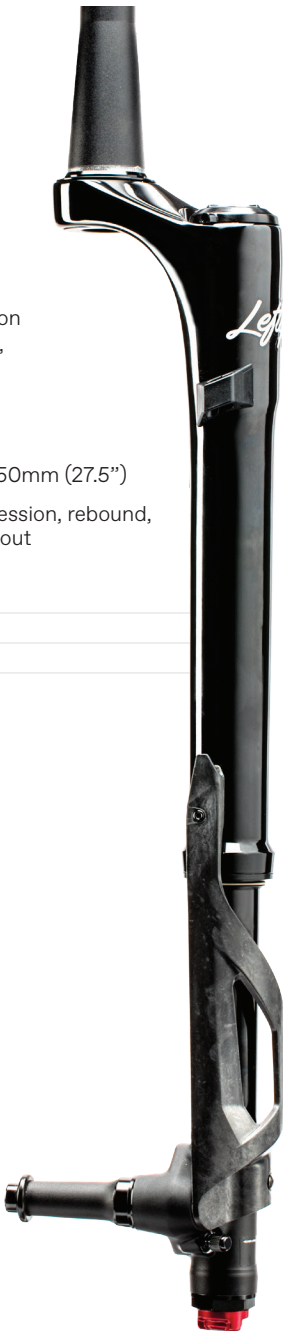

The Lefty Ocho is for the XC rider who believes in results. The incredibly smooth suspension action that results from the lowest friction of any fork structure out there.

The climb-crushing speed that results from having one of the lightest suspension forks in the world. The line-owning precision that results from having best-in-class overall stiffness, tuned for maximum control. And the confidence that results from knowing you're on the most advanced, ground-breaking, preconceived-notion-destroying, XC-race-winning fork ever created. They're the kind of results that result in...well...real results.

HG SL 64 KNØT Wheel

Conceived as the first component of the SystemSix design, our new HollowGram 64 KNØT wheels are one hell of an engineering feat all in themselves. Designed to eliminate the drag penalty normally associated with running bigger tires, the 64 KNØT manage to pack all the comfort, rolling resistance and grip benefits of larger volume tires into one of the absolute, bar none, fastest wheelsets on the planet. The disc-only design is significantly wider than other road wheels and that extra width both makes small tires bigger (a 23c tire measures a full 26mm on our wheel) and helps air flowing over the larger tire reattach cleanly to the rim, maximizing flow attachment and minimizing drag. And as a bonus, while they're optimized for 26mm (23c) tires, the 64 KNØT design exhibits minimal drag with even larger tires, giving riders the option to go bigger without slowing down. It's pure speed without compromise. By combining cutting edge aerodynamic tech patented and licensed by HED with all of the benefits of big tires, the 64 KNØTs are one of the absolute fastest wheelsets in the world.

- Class leading aerodynamics
- 64mm deep, disc brake specific, full carbon rims
- Rim width: 21mm internal / 32mm external
- HollowGram by DT Swiss rear hub, DT 240 internals, Center Lock disc
- DT Swiss Aerolite spokes
- Tubeless compatible
- Shimano and SRAM XDR freehub body versions available

142×12 CL XDR	700c	CP8100U1070

HG SL 45 KNØT Wheel

Designed to eliminate the drag penalty normally associated with running bigger tires, the Hollowgram 45 Knot manage to pack all the comfort, rolling resistance and grip benefits of larger volume tires into one of the absolute, bar none, fastest all around wheelsets on the planet. The 45mm deep rim is the perfect depth for alps passes to hammering the flats. The disc-only design is significantly wider than other road wheels and that extra width both makes small tires bigger (a 23c tire measures a full 26mm on our wheel) and helps air flowing over the larger tire reattach cleanly to the rim, maximizing flow attachment and minimizing drag. And as a bonus, while they're optimized for 26mm (23c) tires, the Hollowgram 45 Knot design exhibits minimal drag with even larger tires, giving riders the option to go bigger without slowing down. It's speed for every road.

HG SL 23 Wheel

These XC-focused full carbon wheels are both ultra light and super stout, great for racing or fast trail riding. The 23mm internal rim width strikes the right balance between the solid bead retention and tire profile of wider rims, and the lightweight rotational mass or narrower rims.

- Rim width: 23mm internal / 29mm external
- HollowGram by DT Swiss rear hub, DT 350 internals, 6 bolt disc
- DT Swiss Competition Race spokes
- Tubeless compatible

Hollowgram™ SiSL2 Road

The evolution of the revolution. 15 years ago, the original Cannondale HollowGram crank started the BB30 revolution and set a new standard for ultra-light, super-stiff cranks. The most current evolution of the HollowGram, the SiSL2, continues this tradition of radical innovation. These hollow cranks are created by bonding together two machined, heat-treated clamshell halves with a super-strong anaerobic bonding agent. Extensive FEA modelling and physical testing have allowed us to refine the internal and external shapes for the ultimate in stiffness-to-weight. The result is a crank light and stiff enough for our top road race machines but still so tough, we use it on our mountain bikes as well. Compatible with all Cannondale Si Spiders and SpideRings.

Hollowgram™ SiSL2 Mountain

The evolution of the revolution. 15 years ago, the original Cannondale HollowGram crank started the BB30 revolution and set a new standard for ultra-light, super-stiff cranks. The most current evolution of the HollowGram, the SiSL2, continues this tradition of radical innovation. These hollow cranks are created by bonding together two machined, heat-treated clamshell halves with a super-strong anaerobic bonding agent. Extensive FEA modelling and physical testing have allowed us to refine the internal and external shapes for the ultimate in stiffness-to-weight. The result is a crank light and stiff enough for our top road race machines but still so tough, we use it on our mountain bikes as well. Compatible with all Cannondale Si Spiders and SpideRings.

Hollowgram™ Si Road

Our patented OPI 3D forging process enables us to build hollow, seamless crankarms that are not only extremely light but also incredibly strong and stiff. In fact, they are the stiffest, strongest crankarms we've ever made. Lighter and stiffer than the competition and completely compatible with every HollowGram spider and chainring set-up, the HollowGram Si cranks bring top-level performance to more pricepoints.

OPI 1x MTB Spidering

Ultralight, durable SpideRing tech for the MTB world. 10-arm, radial arm design with X-Synch thick/thin tooth profiles for chain retention and only 46 grams (30t). The crankarm interface on these rings is not keyed, so the rings can be rotated 90 degrees for maximum longevity.
